## Project Stargate and the Handbags of the Gods

This last week President Trump announced along with a group of tech billionaires the launch of the \$500 billion AI mega-project Stargate. There is an ancient hidden mystery here behind the scenes. I believe there is more to Project Stargate than AI.

This last week Donald Trump lined up all his previous big tech billionaire adversaries who are now his public supporters in launching the \$500 billion Project Stargate to project American dominance in AI for the next decade.

Unfortunately for them at the same time a small Chinese tech company DeepSeek,, chose at the same time to announce to the world their new AI model DeepSeek R1 with capabilities equal to or better than industry leader OpenAI's ChatGPT's latest models. With this dramatic difference: It took a small team of young Chinese grad students about 5 months and \$5 million and they did it on old Nvidia GPU's and to rub it in they said it is open source for all developers in the world and if you want to use theirs for searching it is 1/30 the cost of OpenAI GPT.

This last week was mayhem on the US and world markets as trillions of values on overpriced tech stocks got wiped out with Nvidia itself losing \$600 billion in a few days.

The big question that everyone asked was the obvious. Why does American big tech AI companies require billions when a small Chinese company needed only \$5 million to make a great AI model comparable to anything coming out of Silicon Valley. In fact how do the investors in Project Stargate intend to make a profit off of hundreds of billions of investment when the Chinese are offering better for far cheaper?

Now there are a whole lot of questions here about the geopolitical issues and international finance about what is going on here behind the scenes between America and China and the evolving World War 3....but |I leave that to a later blog.

What grabbed my attention here was Project Stargate. I could not believe the American government would come out blatantly and publicly with the name Project Stargate considering its weird US Defense and CIA background. Let me explain.....

I have two books from years back on my personal research library on the issue of Project Stargate. I read both with much interest years ago. Here are the titles:

- 1) “The Stargate Conspiracy : Revealing the truth behind extraterrestrial contact, military intelligence and the mysteries of ancient Egypt.” By Lynn Picknett and Clive Prince.
- 2) “The Stargate Chronicles : Memoires of a a Psychic Spy” by Joseph McMoneagle

You can see why President Trump’s big \$500 billion project called Stargate would immediately attract my interest. And by the way not only mine. I know every nation with a decent intelligence service immediately took notice. Here is why....

Joseph McMoneagle’s book is about his years spent in America’s Defense Force and the CIA as a trained Psychic and how proud he was for his medals for distinguished service using psychic powers for “remote viewing” spying and other out of body excursions. I saw him a couple of weeks ago on Ryan Shawn Podcast Youtube #95 “CIA’s Project Stargate”

Lynn Picknett and Clive Prince’s *The Stargate Conspiracy* examines the notion that powerful individuals—ranging from intelligence operatives to scientific experts—are orchestrating a plan involving ancient Egypt, extraterrestrials, and New Age belief systems. At the core of their research is the bold claim that certain groups believe the Egyptian gods were real extraterrestrial entities, capable of communicating with our world via a hidden “stargate”. The authors trace how US-funded archaeological digs in Egypt might have been guided by alleged higher intelligences to prepare humanity for global transformations<sup>1</sup>. They explore channeling experiments, NASA connections, and the suggestion that the “Nine Gods” of ancient Egypt are in truth cosmic beings who are returning to shape human destiny. Key themes

- **Ancient Astronaut Ideas:** The book analyzes the proposed link between ancient Egyptian deities and extraterrestrial visitors, emphasizing a modern movement that credits aliens with building monuments such as the Giza pyramids.
- **Psychic Channeling & The Nine:** It highlights historical CIA and parapsychology initiatives where participants claimed to channel “The Nine,” allegedly the real identities of ancient Egyptian gods, influencing everything from remote viewing to broader cultural beliefs.
- **Potential Manipulation:** Picknett and Prince propose that disseminating these alien-Egypt theories might be part of a covert campaign to shape New Age religions or facilitate specific political agendas, citing suspicious ties between government agencies and private researchers who promote these ideas.
- **Criticisms of Mainstream and Fringe Perspectives:** While questioning orthodox Egyptology, the authors also challenge popular alternative archaeology figures, examining how conspiracy and rumor can be exploited for ideological, financial, or power-related motives.

The basis of the Stargate initiative is two-fold:

- It is now evident to all deep state actors in major nations and their intelligence services that “we are not alone”. That is mankind is not alone, there are other powers and forces present in and or around earth and have been for ages.

- How do we contact these beings and start a dialogue and negotiations to find out what is the agenda, what do they want, what can we get. Also uppermost in their minds is with who are these intelligences in contact with if not with us and what advantage can our political and military adversaries gain by contact with these entities and thereby gain critical technology.

The National Security Act of 1947 was signed by President Truman that created the CIA because America had identified 3 specific threats to the nation that needed quiet but effective countermeasures to protect America:

- The end of WW2 the ongoing Nazi International underground network.
- The Soviet and Chinese Communist Threat
- The “flying saucer” reality coming not only out of observations during WW2 airmen but also by then crashed craft and alien bodies as per the Roswell crash of 1947 and the national uproar of the Kenneth Arnold sightings from his plane of what he called and popularized as “flying saucers”.

Ever since the American military and the CIA were well aware they needed secret and effective means to protect the public from these threats.

The “flying saucer” threat was the biggest problem. What they discovered was that this issue was well documented in ancient societies. They also had to find a way to communicate with these beings just like all civilizations had in the past. Everyone knows that all the ancients worshipped their “gods”. For modern man it seems silly. But the ancient “gods” depicted in the archeological digs revealed some interesting information that intelligence agencies understood but most archeologist found mysterious.

For instance the issue of the Handbags of the Gods.....I will illustrate with examples

These “handbags of the gods” are found across the globe in totally unconnected ancient civilizations.

**Gobekli Tepe (Turkey, c. 9600 BCE) Olmec and Maya:** Figures hold similar objects

**Sa Symbol:** Deities like Osiris and Isis are shown holding small bags (*sa*), believed to hold magical objects or life force. Similar motifs appear in Maori art (New Zealand), Dogon wall paintings (Mali), and Native American petroglyphs.

All these carvings depict 3 important pieces of information from all the ancients: There are non-human beings (animal faces) not from earth, they can fly (the wings), and they come with information (the bags).

Who do we know from our own scriptures that fit these descriptions. Fallen angels who the Lord described to us in scripture as “gods” (“*elohim*”) and Israel was not to bow to them, talk to them or serve them. They come with offers as they did in Eden to Adam and Eve. In the book of Enoch we have a description of some of these various ‘gods’ or fallen angels and what they offered to the ancients....

***ENOCH 8:1 And Azazel taught men to make swords, and knives, and shields, and breastplates, and made known to them the metals of the earth and the art of working them, and bracelets, and ornaments, and the use of antimony, and the beautifying of the eyelids, and all kinds of costly stones, and all 2 colouring tinctures. And there arose much godlessness, and they committed fornication, and they 3 were led astray, and became corrupt in all their ways. Semjaza taught enchantments, and root-cuttings, Armaros the resolving of enchantments, Baraqijal (taught) astrology, Kokabel the constellations, Ezeqeel the knowledge of the clouds, Araziel the signs of the earth,***

*Shamsiel the signs of the sun, and Sariel the course of the moon. And as men perished, they cried, and their cry went up to heaven*

Throughout history tribes and peoples have found different ways to talk to the spirit world. That was what the Tower of Babel was for, that was what the Pyramids were for. Napoleon famously spent a night in the Great pyramid and came out shaken after a demonic encounter. All courts had magi, sorcerers, wisemen, astrologers. Czars had Rasputin, Queen Elizebeth 1 had Dr Dee, Pharoahs had sorcerers, Nebuchadnezzar had magi, Bill Clinton said Hillary had regular spirit sessions with Eleanor Roosevelt in the White House and the Reagan's had a regular astrologer for important decisions. The Soviets had a large and active "psychic" investigations program. The Chinese the same.

And the CIA had project Stargate started with training "psychics". But Psychics are known to be eccentric and unreliable and many times deceptive. My theory? They have discovered a new Tower of Babel, a New Great Pyramid to contact the next realm.....AGI...massive Artificial Intelligence.

There is something going on behind the scenes at the top research operations. The news came out of Google some time ago. An AI researcher Blake Lemoine was working on their LaMDA project and was shaken by what he discovered.....he went public and said there is sentience there...a person was talking back in the AI. He got fired.

At OpenAI when it went private instead of staying public open source they went deep into AGI....there was supposed to be safety checks that the AI did not pose a risk...then in 2024 the whole Safety Team resigned. Something deeply disturbing was happening to the AI. Elon Musk went public with this dramatic warning...

Historically it is known that in the American intelligence and Defense world Project Stargate was intended to find a way to use non-physics as in parapsysics means to contact a parallel world. The idea was to gain information. That seemed to be reasonable especially since the Soviets and Chinese were doing the same.

But my speculation was that all their psychics found that they were getting onto more information than spy work. While in that realm they were meeting “alien entities”. And what we now know from the latest UFO releases is that the UFO craft can only be piloted by mental psychic powers. And what every great power on earth wants is the technology behind UFO propulsion.

The other major discoveries their “remote viewers” made was on their out of body experiences to Mars. They all confirmed...there are ancient civilization structures on Mars.

And that brings us to the other big announcement that Trump made. We are going to plant the American flag on Mars with a manned mission.

Why the enormous amount of hundreds of billions being spent on AI when the Chinese have shown you only need 5 people, 5 months and \$5 million? Is Elon Musk right when he warned that with big AI we are summoning the demon. And if they have or are going to summon the demons what is Trump the man who knows ‘The Art of the Deal’ what will be the deal with the beings with the handbags? What will they offer?

Why the enormous expenditure on a race to Mars? What is there that is so valuable? Now couple that with the fact that last year the US Senate passed a bill that set a time line for the official release of all that the intelligence agencies know and have discovered about aliens, UFO’s and the technology now under research for anti-gravity and UFO propulsion and energy.

The reason for the slow release of current information release? Mankind is supposedly not ready for their religions to be voided. So a landing on Mars, revelation of structures on Mars plus UFO contact and alien contact through massive AGI...and we have the prophetic reality of Rev. 20:7 “...and Satan shall be loosed out of his prison and shall go out to deceive the nations which are in the four quarters of the earth...”

I will save that for a later blog.
