The World Reset Part 1: Trump's Liberation Day April 2

On 2 April president Trump announced "Liberation Day". A monumental shakeup of the international economic and political order. I start a series on the strategic, economic and prophetic implications for the world and the church.

April 2, 2025 was the day that President Trump's world-wide tariffs took effect. He calls it Liberation Day. We Christians of course have our own Biblical declaration of economic liberation called the "Jubilee" in Leviticus 25. We also have promises in Deuteronomy 28 that a nation that is blessed of God a visible proof of that is the nation will have such prosperity that it will produce surplus capital and savings which it can lend to other nations who are not blessed and need to be borrowers.

It seems that Trump's major point of attack of worldwide sanctions is to be China. Which raises scriptural questions as to who is the lender and who is the borrower and which nation is blessed with prosperity and which is an international debtor?

America and president Trump are facing enormous set of problems that will create a new world order of economics, geopolitics and alliances. This must be an inflection point in international affairs and as such we need to consult our God in heaven who rules over all as to what are His plans for the nations. And so I need to ask what is the Lord doing on the international prophetic stage?

I refer you to scriptures such as.....

Jer 27:5-6 I have made the earth, the man and the beast that *are* upon the ground, by my great power and by my outstretched arm, and have given it unto whom it seemed meet unto me. And now have I given all these lands into the hand of Nebuchadnezzar the king of Babylon, my servant; and the beasts of the field have I given him also to serve him

Psa 22:28 For the kingdom is the LORD'S: and he is the governor among the nations.

So I accept that Donald Trump is God's choice for America at this time. And the problems that America and Mr. Trump face at this critical moment will affect the entire world. Which means that world history and specifically prophetic history is going to be profoundly impacted in the years of his presidency.

The problem is the very short window of time that Trump has to try to solve a range of very dangerous world crises now pressing on him and America and the world. That is also true for us here in South Africa. What happens here in

the next four years politically and economically will decide whether South Africa survives and grows or descends into failed state and mass national poverty.

But then that can also be said of Europe, the Middle East, the world economy, international finance...what is the prophetic landscape ahead?

The pressing issues Mr. Trump is facing are matters like....

- The American economy cannot survive its current debt trapped trajectory of fiscal and trade deficits and the debt time-bomb that is ticking. It must be addressed now. Are tariffs the answer?
- In trying to solve America's fiscal problems he is literally antagonizing the whole world. Making enemies of long time allies and friends.
- He is destabilizing and the international financial treaties and agreements: The WTO rules of trade, Bretton Woods, NAFTA and many more.
- America and NATO have been defeated in their war on Russia using Ukraine as proxy. Behind the scenes is Trump befriendng Russia to break bonds with China?
- Is Russia's minerals and large market more valuable than the EU who are an economic competitor to America?
- Since Israel is in existential danger of an economy and society on the brink of meltdown, does Trump attack Iran to make Israel great again....and risk a Middle East conflagration that sends world energy prices sky high?
- Will Trump risk war with China over Taiwan. Or more realistically is Taiwan just an excuse because the real danger to America is Chinas world economic power and the probable end off US dollar hegemony?

I believe these are important issues for understanding our prophetic road map ahead.

It means I cannot do an analysis in one or two blogs. I want to cover as many of these issues as possible in a systematic way to plot a long term future for the church.

I come from a different prophetic viewpoint.

I do not believe we are in the "end times".

I believe we are in the time described by Revelation of the fall of "Mystery Babylon".

That time also coincides with the scriptures in Revelation that speaks of the river Euphrates drying up to release the kings of the East.(Rev. 16:12) and the cities of the world collapse (Rev. 16:19). This scripture was first fulfilled in 70 AD when Jerusalem was the mystery Babylon that fell but the Mystery Babylon repeats itself right to modern times.

The reference to Babylon fall and the river Euphrates drying up refers back to the fall of Babylon at Balshazzar's feast and the writing on the wall. That night the Medes and Persians under Cyrus the Great diverted the Euphrates and walked into Babylon.

I see both the Israeli's and the evangelical Christian Zionists have proclaimed Donald Trump "a modern day Cyrus the Great" who is destined to save Israel.

Let me agree but redefine who is Mystery Babylon and who is the Israel to be saved.

The hand writing on the wall that Balshazzar saw that fateful night and which Daniel interpreted the judgment from God to Babylon was "you have been weighed in the balances of God and found wanting, therefore the kingdom is taken away from you".

Notice in the verse I quoted above from Jeremiah 27:5-6 it was God who made Nebuchadnezzar king and Babylon the world hegemon. But they went rogue. They did not treat the nations as God wanted. They oppressed.

God weighs the nations and judges the nations. God has a plan for the earth and the nations.

- God wants peace on earth so that the gospel can be preached to all nations
- God wants nations to turn swords into agricultural machinery.
- God wants His Jubilee economic system enacted in nations so that families can prosper.

After World War 2 America was God's choice as world hegemon to bring peace and prosperity and spread the gospel worldwide. This America did. But after the fall of communism in 1991 something happened in America's "deep state". There was no peace dividend. There was major increases of weapons spending. Instead of drawing Russia into a peaceful economic union uniting Eurasia, instead America spread NATO ever larger ever closer to Russia's borders. The "deep state" needed an enemy to keep 700 military bases all over the world. To keep weapons makers funded and armies employed.

In my previous blog on the corrosive effect on the church and discipleship of God's people I propose that a river of moral filth is flowing from modern day Mystery Babylon. After 9/11 America changed for the worse. It was endless wars, destruction, moral collapse.

The river running through Mystery Babylon to protect it from collapse is a river of money....the dollar. If that river of fiat money dries up as in nations find an alternate international payment system and alternative payment settlement money for trade...then America collapses. The way is made open for the kings of the east.

And Donald Trump as Cyrus the Great toppling Babylon and saving Israel? What if Trump is trying to save the wrong Israel. What if the Church is the real Israel the real New Jerusalem that will heal the nations? What if in trying to destroy Iran to save Israel he ends up destroying national Israel and the Church finally abandons Zionism and gets on with the job of discipling nations.

What if Donald Trump as the new Cyrus the Great destroys Mystery Babylon by trying to Make America Great Again with his economic policies that end up

destroying the dollar? And drying the Euphrates of dollar flows. I see this week Trump proudly announcing the highest military budget for next year \$1 trillion! How does that announcement weigh in the balances of God? Has the writing started on the wall?

Then again I could be wrong. Frankly I don't know hardly anyone who I respect in the evangelical church leadership that agrees with me. And that is not a good place to be.

But I will do my international analysis as best possible and see if I can apply it to a new prophetic road map and let's see where the road leads.

Whatever happens to America my vision is to make Southern Africa the new Promised Land for God's people as the meek who will inherit this part of God's earth.

I might take a few weeks to get this done but this week let's start with these 4 blogs.
