## The Israel-Hamas War: A Different Perspective

Beware of all the “end time prophecy” hype coming from the American evangelicals. There is a huge “prophetic hypocrisy” going on. Things are not what they seem. We need a larger perspective of God’s plans for our times.

The scenes coming through the world media of the murderous and brutal attack by Hamas militants on the civilian population of Israel is beyond terrible. And there will be a terrible price to pay. Israel prime minister Netanyahu promised “the Middle East will never be the same again” after what is coming. And it will not be an “eye for an eye”, it will be a much greater payback of existential proportions for the people of Gaza and anyone else on Israel’s borders who will use this opportunity to attack Israel.

What do we make of this momentous event? I have been following the evangelical prophetic community in America for their response on both Christian TV channels as well as Youtube podcasts to get a sense of what they think are the prophetic implications of this war. Naturally whenever Israel is the topic of war the “end times” and prophecy are the natural topics that are preached and taught. This forms the basis of analysis for “What is going on in the light of prophecy”.

As you know by now I don’t believe or teach the traditional prophetic interpretation coming out of the American church with regards to “Israel, end times, Antichrist, Armageddon” etc. I will give you my Kingdom perspective as alternate interpretation of these and the other momentous war now going on between East and West, Ukraine, Taiwan etc. But first let me alert you to the problem of “prophetic hypocrisy” with regards to all these “Israel- end times” preachers.

What is Israel and the End Times really all about for the American church?

Every prophetic ministry that I have tuned into this last week praying for Israel or explaining the “prophetic meaning of the Israel-Hamas war” invariably all are once again quoting Ezekiel 38-39; Zachariah; Matthew 24 etc. All references to the miraculous return of Israel to the land, all referring to a coming battle and who is involved on the attack on Israel and all with the same list of enemies....Iran, Turkey, Egypt, Syria, Russia, Palestinians etc.

Now let me point out to you my accusation of “prophetic hypocrisy”. My accusation is well known to the Israeli government which is why they absolutely will not allow any evangelical churches, crusades, preaching or conversions. They like their support in

America's congress of "Christian's United for Israel" and the money donations...but they consider evangelical eschatology as a major threat to Israel. Why?

When evangelicals say "We stand with Israel" or "Pray for the peace of Jerusalem" the Israeli government and in fact the people of Israel believe none of it. They have publicly analyzed even in the pages of the Jerusalem Post and in schools and public formats who these evangelicals are and what their real agenda is. And it is not for the safe and prosperous future of Israel.

Evangelical eschatology has an agenda for "Israel and the end times". That agenda is plain and explicit: The Jews must return en-mass to the land of Israel so that they can rebuild a temple, re-activate the Old Testament sacrifices (contrary to the plan of God for a new Testament in the blood of Christ), so that Antichrist can deceive Israel; so that a coalition of nations can invade Israel, so that 2/3 ds of Jews living in Israel can be slaughtered in the greatest holocaust in Israel's history (Armageddon); so that Christ can miraculously appear at the last moment (before every last Jew is killed and only a small remnant still remains) with armies of angels and slaughter the nations and armies fighting what is left of a destroyed Israel.

As for these same evangelicals they are not worried for their own safety because before the slaughter of Jews begin they will be safely in heaven enjoying a bridal banquet with Jesus having been "raptured" out of the earth by the millions.

Have you read the recent report of Christians being spat on by orthodox Jews in Israel? Do you wonder why? Do you wonder why Israelis who have been read into the evangelical "end time" scenario don't believe anything about evangelicals "we stand with Israel" or "pray for Israel"...really, how are you going to stand with Israel when they are being "holocausted" and you are safe in heaven. So you really will only stand with Israel while all is safe. And pray for the peace of Jerusalem? Really? When you know God's plan is for international war on Jerusalem and the slaughter of 2/3 of all Jews exactly what are you praying for? "Lord thy will be done for end time Israel...?"

This is why I call it "prophetic hypocrisy". Have you noticed the power of the evangelical right in America's military and congress and among voters? The moment there is any hint of danger to Israel they rush military support. In fact if you look at all the nations in the Middle East that America has declared enemies and bombed or planned to bomb and destroy and that includes Russia, they all look like the list of nations in Ezekiel that are these prophetic pronouncements regarded as enemies of Israel. Are American evangelicals trying to egg on wars with American power so that Armageddon and the 'end times' battle of Israel can be delayed....because all Israel's enemies are being destroyed? Why not just trust that the Lord will handle these things in His way and His time?

I suspect that all this "end times" preaching is very exciting when you are sitting safely in church and waiting for the sermon to end so the family can go out for a Sunday KFC special. But if things start to look too hectic like oil price spikes or Walmart shelves look

empty then it's time to send in the American military to forestall all these "end times" problems and restore the American way of life.

By now you know my writings and teachings and you can look it up on the website:

- These are not the end times, that was from 33 AD to 70 AD
- The Great Tribulation of Math 24 took place to "this generation shall see all these things" as Jesus prophesied and Jerusalem and 1 million Jews died in 70 AD.
- The return and gathering of Israel prophesied in Ezekiel 36-39 happened in 141 BC at the conclusion of the War of the Maccabees when Israel once again had a king and large national territory restored as Ezekiel said they would.
- And the invasion from the north by Gog did happen in 37 BC with an international Roman army under "Gog\_ the Edomite (Herod) invaded a peaceful Israel for "great spoil"...the international tithing tax revenue of the world wide Jewish community coming to the Jerusalem temple.

And 1948? Yes what was the great thing that God was doing in 1948?

Well if your eyes are on the Jews and Israel my eyes are on 1948 the start of the great signs wonders world wide revival, the start of the great missions to the world, the start of the great mass evangelization crusades like Billy Graham etc. Yes the great new Israel of God, the Church was rising like the dead bones of Ezekiel 36 out of denominational formalism into a new era of miracles, missions, world expansion.

Did you say what about the fig tree? Did Jesus not say when you see the fig tree come alive.....is this not Israel returning to the promised land?

Yes I saw a fig tree sprouting leaves in Palestine. But do you remember what Jesus did to the fig tree that sprouted leaves but when He went to inspect it for fruit there was none. He cursed it and it and the next day it was dead.

Yes I also saw a fig tree in 1948 sprout leaves with new life....the church. I saw 70 years later that this fig tree in which the branches of Gentiles were grafted into it to become the new Israel...this fig tree 70 years later has borne fruit, the fruit that the Lord is looking for, saved souls, fruits of the Spirit.

70 years later what fruit do you see on your Palestine fig tree? Yes I see leaves. But what else? Is there missions and churches and outpouring of the Spirit and freedom to preach the gospel and a changed nation? Do you really believe a people can be blessed by God simply because they have the DNA of Abraham but not the faith of Abraham?

Here is my perspective.....

Be careful about Israel and prophecy. Things are not what they seem. Remember old blind Isaac. He thought he was blessing Esau. But it was Jacob pretending to be Esau who stole the blessing. In return do you think that Esau can pretend to be Jacob to steal the "kingdom" inheritance back again?

Make a sober assessment of what is really going on internationally and economically and spiritually.

Regardless of all the prayers for Ukraine and intercessions and “God is against the evil Russians and will defend the people of Ukraine” the reality is that Ukraine is lost and destroyed as a nation and Russia will win and will divide it according to where Russian speaking people live in Ukraine.

Any and all prophecies to the contrary will fail. In addition with regard to Russia... I keep hearing on all these prophetic analysis of the Hamas – Israel war...watch out Russia is going to invade Israel because Russia is “Gog”. This is prophetic nonsense and part of the false “end time” narrative. Just take a sober look at the geostrategic map of the world and do you think logistically Russia can move a million men to the border of Israel? And what makes you think they want to or that Israel has anything Russia wants?

### **The tragedy of Gaza and God’s plan for the Middle East**

My perspective of the international scene and the plan of God for the nations is this....

‘Peace on earth and good will to all men’. This is what the angels announced at the coming of the Messiah and it is still 2000 year later God’s foreign policy. The plan of God is that through time...men will learn war no more. Isaiah 2. That productive capacity used to make weapons of war will be turned into production for food and human essentials.

Any and all nations on the warpath that want to settle disputes through war will have God and His plan against them.

I refer here to Gaza for example. If the people of Gaza had just read Hebrew scripture they would have read in Isaiah 19 that God wants a highway from Egypt to Israel to Assyria (Syria, Jordan, Iraq) and that these 3 nations who are at war will become saved and at peace and be blessed.

So if you are living in Gaza then in 2005 Israel withdrew all the settlers there among great fighting and resistance and the effect that Gaza had secure own borders touching Egypt, the sea and Israel. This is what they should have done:

Immediately in 2005 declared that they want to become the Singapore of the Middle East. Recognize the state of Israel and its borders and demilitarize and sign trade and peace treaties like Egypt their other neighbor had done. They could have gone to Israel and said your scripture says that there must be a highway from Egypt to Israel. We propose to be that highway of trade and prosperity. If they had done that they could have with help from Egypt and Israel also exploited huge gas reserves off their coastline, which is the same gas deposits that both Israel and Egypt are now exploiting. This plus trade and peace and a port and transport to the world and energy independence and linkage to

Israel's and Egypt's gas exports would have made the 2,3 million people of Gaza rich and prosperous.

Instead they chose war and confrontation. They sowed the wind, they will now reap the whirlwind.

But this truth is the same for all nations of the earth. The Ukrainians could have accepted and signed the Minsk accords and given Donbas autonomy for Russian speaking culture and kept Crimea and the nation intact. Instead they chose with the backing of the EU, the UK and America war with Russia.

The EU could have made peace long ago with Russia instead of perpetuating an unneeded NATO alliance and push NATO to the Russian border. They could have had a continental trade region from Lisbon to Vladivostok with access to Russian cheap energy and food and resources and Chins and Asian markets. Instead they chose NATO and conformation. Germany and the rest of the EU are finished as industrialized nations.

### **The International Civilization Confrontations**

We are in a war or contest of civilizations. My previous blogs were part of my thesis that western civilization and the prosperity that came with it were founded on the basis of Christian ideals. The concept of the Christian Civilization.

What Hamas did in Gaza is what Islamic Jihadis are doing in north and west Africa every year. And in Mozambique now. The 1700 Israeli people enjoying a holiday time brutally slaughtered by Hamas is what is happening every year in Africa by Jihdi militia.

There are civilizations that will not survive the coming decades. If Islam does not change its civilizational structure they will not survive.

If America will not stop its 750 military bases around the world and \$1 trillion annual military budget then America as a functioning world economy will cease.

If Israel does not change its foreign and domestic relations it will not continue as a viable nation. By example: One third of the people are Orthodox Jews (the "Haredim"). The other two thirds are mostly secular and atheist. The Haredim have 5-6 children the rest of Jews 1 child per family. The Haredim do not have to serve in the army, live off of social child grants from the state and most of their children go to religious schools and study the Torah and not technology or any other trades.

Israel before the war was in civil war mode. The small portion of the population are the high tech high income prosperous Israel (at most 8% of the economy). The rest of Israeli are poor with high cost of living and poor salaries barely making ends meet. America and Israel just signed a treaty of visa free travel. This war has only started. The darkest days are ahead. I predict when it is over the economy of Israel is in tatters, there will be

no “Abrahamic Accords”, the enemies on all sides will be greater and more powerful and here is my major prediction:

With visa free travel now legal for all Israeli’s watch for a mass exodus of the high tech skilled companies leaving Israel for America.

There is no economic or security solution for Israel in the future under present and developing circumstances.

The future of Israel is not what the American church thinks it is.

Keep your eyes on the Church and what God is doing in his Church, not Israel.

Internationally, keep your eyes on which nations are pursuing peace and peaceful trade and which nations are increasing war and conflict.

God’s future plan for planet earth is peace on earth and good will to all. Any nation not pursuing God’s agenda has no future.
