God's Great Covet Reset of Nations, Economies and the Church

In the coming year you will much in the church about the "end times" and in the secular media about The Great Economic Reset. But if you want a different perspective here is my Kingdom analysis. You will need this if you want to understand the coming Techno-Feudalism new world order.

Any analysis of major world affairs must start with the question, What is God doing? rather than the usual "end times" preaching of "look what the devil is doing". My approach to the issue of the world wide pandemic that is Covid-19 is to look beyond all the media chatter, the hypocrisy of politicians (lockdowns for the peasants, freedom for the elites), the conspiracy theories of origin, the contradictions in medical analyses, the fights over vaccinate or not vaccinate etc.

I ask myself looking at the world situation in context, the church context, the economic context and the flow of God's prophetic timeline....what is the Lord doing? Yes what is God doing, not what is the devil doing. You cannot for one moment actually believe that the Lord God of creation is looking at this and saying Oh my, I never wanted this, this is not my doing, how am I going to fix this?

If you disagree with me have another read through your Bible and the multitude of references of the Lord sending plagues upon nations when He wants a change of government or a change of policy.

Let me give you a major clue for me that I noticed that bears striking resemblance to documented interference by the Lord in the affairs of kings and rulers of nations. What caught my attention was the plain stupid policies enacted by governments of the world that would literally destroy their national economies for a pandemic that is statistically only a real danger to those over 70 with co-morbidities. You would think the logical thing to do is lock down the elderly and protect them with social distancing, masks and whatever and prioritize health care for them.....but keep the rest of the nation functioning. Instead universal lockdowns have here in South Africa wiped out 47% of small businesses, 42% in America, thrown 2,2 million out of jobs here, decimated state finances to the point that we will never recover fiscal solvency as a nation but now perpetual national debt servitude to international bankers.

Did lock downs last year stop the spread of Covid? No. Did wearing masks and social distancing stop the spread of Covid? No. But it did stop the economic activity of whole nations destroying the jobs that families need to put food on the table, pay rent and live and send children to school.

And as if that was not enough we go into 2021 with the same failed policies and we have the assurance from the scientists that this Covid strain will mutate and we will have it with us for always just like the flu every year. Which brings up an interesting statistic that is being reported by the WHO....there have been hardly any seasonal flu cases reported in the winter season of the Southern Hemisphere and now in the winter season of the Northern Hemisphere. Here is their chart....has anybody perhaps considered that millions of normal flu cases maybe are diagnosed as Covid-19?

And the Biblical analogy? You remember Pharaoh and Moses? God hardens the heart of Pharaoh to not let the Israelites go regardless of the pain of plague after plague. Why? So that the Lord can completely decimate the Egyptian economy. Why? Because it was a slave owning economy exploiting the poor for the rich and it was time for His people to move on and get very uncomfortable in their captivity and move on to their destiny!

You get the point? If not let me explain.

My analysis is this. There are two long term trends in the world that I believe the Lord has said....I've had a enough of this...it is time for drastic change, it is time to stop this and turn things around.

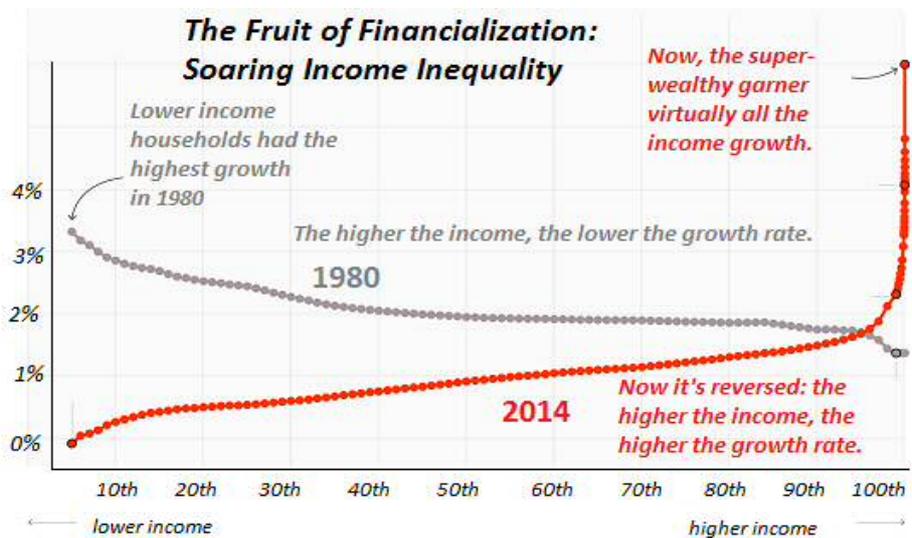

Trend 1 : The impoverishment and destruction of the middle class through the financialized economy of Finance Capitalism. That same middle class that was built up through industrial capitalism.

Trend 2 : The capture of the evangelical church by the world culture to a people who are neither hot nor cold and have lost their "saltiness" to stop the corruption of their culture.

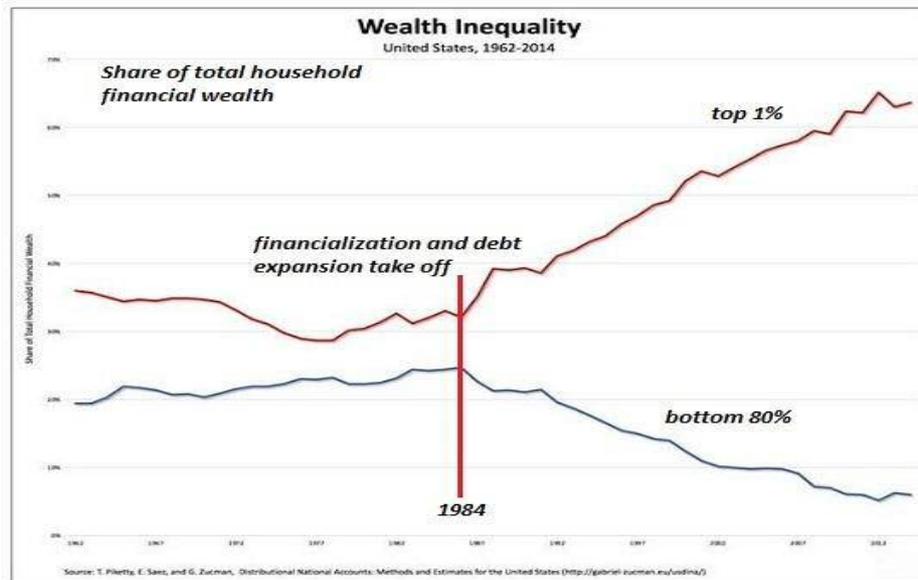

The year of 2020 and the Covid-19 pandemic and the government responses to this pandemic as crazy and non-sensical as those responses have been have had a huge impact on the world economy and the church. And I see the hand of the Lord in this.

The World Economic Trend 1980-2020

I am going to give you below the trend lines of wealth inequality in America but you can extrapolate that to the rest of the world as well. For the last 40 years there has been a steady yearly downward spiral of the finances and income of the working class people of the world. That has been offset by the yearly increase of the capital owning class of the world. 10% of the nation own 80% of the financial wealth. The world is moving in the direction of 80% are the peasants and 20% the new overlords. What the Covid pandemic has done is to accelerate this trend by wiping out the last remaining small business owners who constitute the last of the middle class that do not work in the government bureaucracy with their high guaranteed salaries and benefits and lifetime employment.

source: New York Times 8/7/17

Financialization, debt-fueled speculation and globalization have enriched the rich.

What does this have to do with the Lord and His Kingdom? This is where evangelical prophecy interpreters always go wrong. They don't understand the plan of God for this world. They don't realize or accept that Jesus meant it when He said the meek are

to inherit the earth. They don't preach deliverance for the poor or have an understanding of what Jesus said "...to preach the acceptable year of the Lord". Which happens to be God's economic Jubilee program for the poor of all nations.

Instead we have had 40 years of "prosperity and power" preaching bringing about no prosperity and little demonstrable power.

Which brings me trend number 2:

The cultural capture of the evangelical church by the world culture.

Here are the latest Barna Research figures of the state of the evangelical and Pentecostal churches showing the enormous inroads that cultural relativism has made into the key issues of our Biblical based faith.

What we are used to as the strong stand of the evangelicals in America on key issues of faith are being eroded every year to where you have to ask What is the meaning any more of the label "Evangelical"?

The following statistics are from America but they also hold true to other areas of what we can call Western Civilization.

More than half of American adults, including 30% of evangelicals, say Jesus isn't God but most agree He was a great teacher, according to results from the 2020 State of Theology survey. According to the survey, 35 percent of evangelicals actually want the Supreme Court to keep Roe v. Wade in place. Meaning they are pro-abortion.

In 2007, 90 percent of evangelicals said their church forbid (63 percent) or strongly discouraged (27 percent) "homosexual behaviors." In 2020, that figure has dropped to 65 percent (33.7 percent forbid, while 31.4 percent strongly discourage). In 2008, 34.4 percent of evangelicals between the ages of eighteen and thirty-five supported same-sex marriage. In 2018, that figure had risen to 56.1 percent.

From 1981 to 2007, the United States ranked as one of the world's more religious countries, with religiosity levels changing very little. Since then, the United States has shown the largest move away from religion of any country for which we have data. Near the end of the initial period studied, Americans' mean rating of the importance of God in their lives was 8.2 on a ten-point scale. In the most recent U.S. survey, from 2017, the figure had dropped to 4.6, an astonishingly sharp decline.

A new report released by the Cultural Research Center (CRC) of Arizona Christian University has a troubling conclusion. American Christians are undergoing a "post-Christian Reformation," says Dr. George Barna, Director of Research at the CRC. Unlike the Protestant Reformation, whose goal was to return to the foundational teachings of the Bible, this modern movement is one where Americans are redefining biblical beliefs according to secular values.

Below is the result of the study of responses to the questionnaire done by the Barna Group to Evangelicals, Pentecostals, Main Line Protestants and Catholics. Please note the percentage answers are not what percentage agree with the statement but what percentage **disagree** with the statement.

Examples of Christians' Beliefs That Differ from Biblical Teaching (Percent who reject the biblical teaching specified)				
	% <i>reject</i> this biblical teaching			
Biblical teaching	Evang	Pentec	Main	Catholic
People are not basically good; we are sinners	75%	76%	81%	84%
Which faith you embrace matters as much or more than simply having some faith	62	71	76	84
The Holy Spirit is not just a symbol of God's power, presence or purity, but is a real, influential being	58	66	73	74
Success is consistent obedience to God	53	48	77	84
There are absolute moral truth that apply to everyone, all the time	52	69	58	69
People cannot earn a place in Heaven by being good or by doing enough good works	58	49	61	85
History is story of God's plan for humanity moving toward fulfillment	44	59	79	76
Bible is unambiguous in its teaching about abortion	44	49	62	58
When Jesus Christ was on earth He was fully human but He did not sin	43	44	59	66
The Bible is the primary source of moral guidance	42	38	71	77
Human life is sacred	40	54	55	57
Personally certain to have eternal salvation only because have confessed sins and accepted Jesus Christ as savior	28	45	59	72
God is the basis of all truth	28	30	63	57
Bible is the word of God, is trustworthy and reliable	26	32	63	53
Abbreviations: Evang = Evangelical church attender Pentec = Pentecostal or charismatic church attender Main = Mainline Protestant church attender Catholic = Catholic church attender

These are tragic statistics! So what now in God's plans for the near future?

Here is my analysis of what now. Clearly financial capitalism is the long term process whereby wealth is transferred from the poor to the rich. This has to stop.

Clearly also regardless of all the preaching in mega-churches, millions of books, videos, TV ministries, seminars, conferences, rock star preachers etc....the individual church member is not being disciplined. The faith among many who call themselves evangelical may be wide but it is not deep. The church goer as audience and consumer of information is not working. Every year now the Biblical principles of our faith are being eroded by a toxic culture that is providing alternative "good news", a different gospel, a different value system.

What has been the Biblical history of the Lord with Israel when they decide that they want other gods, other values, that they want to be like other nations? From Moses right through the era of Judges, right through the era of prophets and kings, there is

one thing the Lord has always done....He has sold them into slavery to serve those gods to be the servants of those foreign powers. He has taken away their assets and given it to their enemies to rule over them.

Here is what I predict coming. The Covid-19 plague has broken the economic system and has devastated the middle class. It has shut down the auditorium churches and devastated the income of the traditional church structures. This is God in action!

What is coming is what I will call the Techno- Feudal oligarchy of the overlords consisting of the socialist state and their tech partners. The emerging asset stripped majority peasant class will become more and more dependent on government handouts for everything including a basic living subsidy to survive. The techno giants will provide mindless entertainment for the masses to keep them docile, will limit access to information, will assist government in social control. Along with the electronic drug of wasted lives in front of screens will be pharma drugs of all sorts legalized to provide chemical stimulants in the form of marijuana, heroin, meths, phsycotics such as DMT and LSD for personal use.

The church? The real church that still holds firm to Biblical truth will more and more be found in home meetings and in real relationships. The coming great move of God is the raising up of a people who are being disciplined through real spiritual relationships with other believers, who are in a relationship where they need those relationships and they also need to contribute what they have. They are not interested in always just being someone's audience. They want to get into the battle.

This year I will be spending more time on this theme of the Great Reset. What the Lord is doing in the world economy, what the Lord is doing in the tech world, what the Lord is doing in His people.

My theme is going to be victory for the church, collapse for the world system in God's ongoing Great Reset. I want to share with you all the wonderful things the Lord is preparing for us which to others are tools of dominion over people but will be tools for us to bring about prosperity to God's people and deliverance to the captives. None of the plans of the socialist states and their tech oligarchs are going to stop the coming great move of God or the rise of His coming great Church.

But first back to basics....discipleship and relational Christianity. Relations with our fellow saints and relations with the Lord....and then we can get on with the job of the Great Commission of discipling the nations into the Kingdom of God.
