Week of 2 March 2024

World Signs of the Times Update

There are very important trends in world affairs recently that need analysis. Gaza-Israel war; Ukraine-Russia war; AI and tech developments; SA Elections and economy...and how to interpret them from two Kingdom perspectives.

Let me give you a quick two step easy way to analyze the prophetic timeline of how to analyze where we are in God's Kingdom on earth. Just two image/scripture/concepts will do it:

- 1) Jesus said...."As in the days of Noah...."
- 2) Daniel's interpretation of Nebuchadnezzar's dream image.

Both are prophecies and strategies you must understand to interpret and respond to the world rapidly moving to a chaotic mess.

The first, how many times have you heard concerning the teaching on the rapture and end times....."like the days of Noah, one will be taken and one left behind". Read it for yourself in your own Bible. Jesus explained the wicked were taken out and the righteous left behind.

Suggestion 1: You want to be left behind

Suggestion 2: God has all sorts of ways for the wicked to be taken out. In most cases you better have built an ark and provisioned it so you can make it though the coming storm.

Second: When Daniel interpreted Nebuchadnezzar's dream he saw succeeding world empires. How many and who they are not important here. What is important is that eventually they all split and divide and can't all get along (iron mixed with clay) and they are shaky and brittle. And then a stone from the mountain (the Kingdom of God) strikes the brittle nations of the world and as they eventually collapse the stone grows to fill the earth.

Suggestion 1: The stone is Christ and the Kingdom of God on earth came when He rose from the dead and all power in heaven and on earth was given unto Him. Meaning the Kingdom has come, is coming now and will come until it fills the earth.

Suggestion 2 : There are many power structures on earth built on sand which will fall when God is able through His church to fill that gap with His Kingdom Ekklesia.

With the above perspectives I want to recap some recent headlines and important developments. I am doing this in the middle of my long term strategy series as an encouragement that we like Noah need to be planning an ark concept that is

provisioned to ride out the coming storm in both the world and South Africa and are able to rebuild the waste places of what is left. More on that at the end of the blog.

How do the unbelievers get taken out so that the meek can inherit the earth?

Many different ways but here is a headline from Japan this week that can be applied to most developed industrial nations....

Japan's Demographic Implosion: Live Births Crash To Record Low, 12 Years Ahead Of Forecast

When it comes to monetary and fiscal policy, Japan is doomed. Unfortunately it is also doomed demographically.

Extending what has long been the most dismal trend in Japan's civilizational history, government data showed that the number of babies born in Japan fell for an eighth straight year to a fresh record low in 2023, underscoring the daunting task the country faces in trying to stem depopulation.

The number of births in 2023 fell 5.1% from a year earlier to 758,631, while the number of marriages slid 5.9% to 489,281, the first time in 90 years the number fell below 500,000 - signaling even greater declines in the population as out-of-wedlock births are rare in Japan.

BTW those 489,000 marriages will only produce 500,000 children. In 1972 Japan and 2,1 million babies. Japan like South Korea and China and other developed Asian have either 1 or less than 1 child per woman. You need 2.1 to maintain your population.

All the industrial world nations are dying. No children, no future. You have no children for 4 reasons:

- Money and career are more important than marriage and family like in Japan.
- You want marriage and children but you cannot afford them...like here in South Africa Rapport newspaper in recent article it takes R3 million to raise a child from birth to out of the house.
- You kill your babies before they are born..which happens by the millions in these nations.
- You adopt a homosexual lifestyle of which in America and other western nations is now a fast growing trend among young people.

Result : Most of these nations will never recover or reverse their demographic death. Places like Japan, Korea, China governments have tried financial incentives for couple to have children. It does not work. Children too much of a distraction to a life of self-indulgence.

Kingdom Lesson here: How do we create an economy that concentrates on family growth so that our children and grandchildren one day inherit the earth and riches that childless unbelievers have left behind?

The Israel - Gaza War Update

This last week the Israeli cabinet announced that a vote was taken in their Knesset and by a large majority of all parties that there will never be a "two-state" solution or a Palestinian state with Israel.

That finishes all the sham decades of the "peace process" negotiations towards a two-state" solution. It is very important for evangelical Christians to now confront the reality of what they have dreamed and prayed for. One state of Israel from "river to sea". They will now see what they know "Remember Amalek" meant when Netanyahu declared this months ago to all of Israel with much rejoicing.

There are no more negotiations. There are no more "peace treaties". It is now time for what in Israel is termed "the final solution" to the Palestinian population. There is only one choice now that Israel has made to the Palestinian population : Leave the land of Israel or die. The Palestinians are being and will be ethnically cleansed out of Israel through genocide.

The Gaza population is being systematically bombed, starved, shot and huddled into a helpless mass of 1,5 million starving people in Raphah. Here is a headline this week from the American government....

Lloyd Austin: Israel Killed "Over 25,000" Women & Children In Gaza

Secretary of Defense Lloyd Austin said on Thursday that Israel has killed over 25,000 Palestinian women and children in Gaza since October 7. When asked how many women and children have been killed during a House Armed Services Committee, Austin replied, "It's over 25,000."

For those of you all over the world (over 10 million) who joined Mike Bickle and the International House of Prayer in America in a 3 week (May 7 to -28) time of prayer and fasting for the fulfillment of Isaiah 62 "That Israel Jerusalem would be a shining light to the world and praise in all the earth" has God heard your prayers? Is the genocide of Palestinians your idea of how "Israel is to be a blessing to all nations"? Are you at last willing to maybe admit, hey maybe I need a change in my theology, maybe the Church is the Israel of God through which all the earth will be blessed.

174 Nations voted against Israel and America in the UN calling for an immediate ceasefire in the war, Remember all the prophecies from the "end times" preaching that the nations of the world will turn against Israel? And that Israel will be miraculously saved by divine intervention? Well it is also time to see if that prophecy holds up or is also a failed interpretation of scripture.

My Kingdom suggestion: Get out of the American Gospel of End Times Dispensationalism and Zionism. It is a dead end theology that exalts national Israel and diminishes the Church. It looks constantly for signs of the rise of Satan and Antichrist rather than the rise of Jesus, the Church and the Kingdom of God.

News this week from Ukraine War

Putin Warns Of Nuclear War If West Sends Troops To Fight In Ukraine

Russian President Vladimir Putin used the occasion of his much anticipated annual state of the nation address to directly warn NATO that sending Western troops to fight in Ukraine could result in nuclear war.

On Monday French President Emmanuel Macron escalated the rhetoric by telling a security forum in Paris that sending Western troops to Ukraine "cannot be ruled out".

This is a dangerous and highly revealing statement from a top defence official in the West in a long time... It also demonstrates the precarious urgency of the moment and the huge stakes going into the November US election. The world truly stands **on the precipice of a nuclear nightmare** with the following fresh assertion of Biden's Secretary of Defence Lloyd Austin, who said before Congress on Thursday:

"If Ukraine falls, I really believe that NATO will be in a fight with Russia,"

What's more is that this came the very day that Russian President Vladimir Putin warned things could easily spiral toward nuclear war in the scenario that NATO sends troops to Ukraine.

My analysis: Russia will win this Ukraine war and decimate what is left of a rump Ukraine. They will give the populations that remain a choice of east or west. And then Russia will turn its back on Europe and turn east to new markets and new partners in the east. Russia will also win because they choose to be an Orthodox Christian nation with a long time future based on a moral society and family values.

Western Europe is finished demographically, economically and militarily. The continent on which the Reformation started and ended. The light of evangelical Christianity has long since gone out of Europe. They long ago abandoned God and Christian values and God has abandoned them. Their lands will be overrun by Muslims and African refugees. The 5-7 children that African and Muslim women bear will inherit the empty lands of Europe.

My thoughts on South Africa

The national elections were announced this week of 29th May. My expectation is another ANC victory in coalition with like minded soul mates from either the EFF or a few other minority parties.

Why? because the Christians majority in South Africa need another 5 years of misrule, looting, cadre deployment, ineptitude to wake up to the idea of God's Kingdom rule. Another 5 years of ANC and no rapture of the Church plus the collapse of Christian Zionism should be enough to get some attention.

The evangelical Christians in South Africa are not ready for the responsibilities of what it means to have on earth as it is in heaven. There are no serious discussions of Biblical economic principles, no national strategies on God's plans for the ecology, new city design for urban renewal, how we turn Southern Africa into the world's breadbasket, how we use the newest technologies for educational reforms, how we start the second and third industrial revolutions instead of fantasizing about the fourth industrial revolution....we will have another 5 years of misrule to plan how we intend to rebuild the waste places of Southern Africa. And if you need any encouragement about how quickly we can rebuild a national energy system let me remind you of what we once did.....

In the period 1960 until 1992 Eskom installed 19 power stations. That means every 20 months, a new power station came online - on time, on budget! Well done the Old South Africa.

In a foreword to a book all about KOEBERG, Dr. John Maree wrote that in that same period, ESKOM was able to REDUCE the real price of electricity by 35%, and they could foresee that by the end of the century (i.e. 2000) they should be able to reduce the real price of electricity by another 10%.

It is said that Eskom produced 56 Gigawatts of electricity with 17 000 employed in 1994. It now produces (on a good day) in the order of 27 Gigawatts of electricity with 47 000 employees. As the 'Mericans would say - do the maths!!!!

This time we can build back better with all of our people working for all of our communities using the best new technologies of the world employing any and all who have the skills regardless of the race to do the job.

And in our churches we have all the skills and all the resources we need to rebuild this nation. We just lack leaders and vision.

The Kingdom Lesson here:

How do we get Christians across all denominations who love Jesus and love their country and love their families and are worried about their future to work together to

build the community arks of safety and supply that will endure the coming national trials and allow us to rebuild a new Southern Africa?
