Week of 7 September 2024

Shaking in the Church, Israel, World Economy, Nations....this last week!

Media reports from this last week of dangerous trends in the church prophetic movement, Israel, the world economy and nations. Read and catch the trends.

There are three important scriptures that give you a good analysis perspective to understand the Kingdom prophetic timeline we have entered into. I quote...

Heb 12:27 And this word, Yet once more, signifieth the removing of those things that are shaken as of things that are made, that those things which cannot be shaken may remain.

Mat 15:13 But he answered and said, Every plant, which my heavenly Father hath not planted shall be rooted up.

Mat 21:43 Therefore say I unto you, The kingdom of God shall be taken from you, and given to a nation bringing forth the fruits thereof.

The scriptures are very straightforward....God owns the planet earth. It is His property. He is looking for fruit from what He has planted. But not everything in this world is God's plan or God's planting.

Jesus said He is the sower of the good seed. He sows the seeds of the Kingdom of God in the earth and then Satan the enemy sows tares into the world that seem to look good at first. But then the shaking comes. And the tares are removed.

That is how you analyze world events. It seems that every week there is new shaking and new tares that are being removed or on their way to removal. Why? To make room for the endless growth of the Kingdom of God.

I will give you 4 headlines and issues this last week of current shakings that are very meaningful for the growth of the Kingdom. Two are very hard to understand from a current charismatic evangelical viewpoint.... in the church and Israel.

1) The shaking in the Charismatic Prophetic Movement carries on.

After many recent ministry scandals that have taken out whole ministries (e.g. Mike Bickle and IHOP; Pastor Robert Morris of Gateway mega-church, Hillsong...all from sex scandals in the leadership) Now this last week one I did not expect and very sad about....

[MorningStar founder Rick Joyner slams Chris Reed for disrespecting ministry with resignation](#)

MorningStar Ministries Founder Rick Joyner alleged Sunday that the ministry has mounting evidence showing the ministry's former leader, Chris Reed, lied to them about a physical relationship with a former student, which enabled him to be elevated in leadership when he should have been "disqualified."

Lesson to watch out for: The American prophetic movement has far too much influence in the broad church and far too many missed prophecies and sex scandals. Their credibility is at an all time low. I was following Christ Reed's ministry for some time. I don't agree with his end times or eschatology. But I was intrigued by his angelic visitations, meetings with the Lord etc. Now he confesses that he joined Rick Joyner's Morningstar Ministries in October 2021 and by that November he had started a sexual relationship with one of the students in the School of the Prophets. What is going on here? Where is the prophetic discernment among the prophets?

2) Israel is Collapsing

I know most of you don't believe me on my views over Israel. I simply believe what Jesus said in Matthew 21:42.....the Kingdom of God has been taken from Israel and given to nations (the Church) who will produce the fruit that He is looking for. So who is producing the fruits of the Spirit in the world today...Israel or the Church? Here are some headlines this week which tell me my interpretation is correct.

From the Haaretz Newspaper on 3 September. An article written by IDF general Yitzak Brik with this headline...

"It is Not Hamas that is Collapsing but Israel"

Another article this week with this headline...

"Israel's Economy Battered and Bruised by 11 Months of War"

The articles go on to describe the terrible economic conditions that doom the very survival of Israel from this last year of war:

- 250,000 people this last Sunday demonstrating outside Netanyahu's home. Israel's society is divided.
- 160,000 Palestinians who used to work in construction and agriculture not working. Huge economic losses.
- The cost of the war this last year has been \$68 billion. Huge debt and deficits which are unpayable and unsustainable.
- Thousands of IDF soldiers killed and wounded.
- International tourism has stopped.
- 48,000 business bankruptcies this last year.
- 530,000 Israeli's have left the country more are planning to exit and most have moved their money overseas.

This cannot continue. Either economically or militarily. Here is my advice: The Israel planted in 1948 was not planted by the Lord. What the Lord did plant in 1948 was the start of the greatest signs and gifts and miracle ministries not only in America but all over the world. That is the fig tree bearing fruit. The nation pretending to be Israel is as full of leaves but barren of fruit as they were when Jesus said the "Kingdom is taken from you." And the Kingdom will not be open to them until they get grafted back in through repentance and faith in Jesus Christ.

3) The Global Depopulation trend will kill the economies of all industrial nations

Babylon is falling. For many reasons. But one sure way is killing their babies and with it their economies and their future. Here is another headline article this week...

Global depopulation: saving the Earth while killing the economy?

Fewer humans doesn't necessarily mean a reprieve for nature while declining demographics are a proven drag on economic vitality

by [ANDREW TAYLOR](#) and [SUPRIYA MATHEW](#) September 5, 2024

That is right...the wicked die out which will leave the earth for the meek to inherit. We will have to clean up the polluted mess they leaved behind and recreate natural habitats for animals and plants but we were called by God from the beginning to tend His garden earth.

4) The Global South Nations are getting out of the American dollar in world trade.

De-dollarization the path to global financial freedom

US weaponization of dollar is backfiring as BRICS and wider developing world accelerate away from dollar-based trade and holdings

by [JAN KRIKKE](#) August 9, 2024

America can only survive economically if they can print up trillions of dollars out of nothing to pay for massive fiscal and trade deficits mounting trillions every year. When nations no longer want declining dollars but real value for their trade that is when the American economy collapses. And that is coming.

De-dollarization or a worthless dollar means \$300 trillion in international dollar debt disappears meaning as the article headline says "global financial freedom". America will fight this trend.

Economic and financial sanctions often backfire. The most notable example is the weaponization of the dollar against Russia. The measure has sparked a global movement to de-dollarize, the opposite of the punitive move's strategic intent.

The historic miscalculation didn't stop US Senator Marco Rubio of Florida from introducing a bill in Congress to punish countries that de-dollarize. The bill seeks to ban financial institutions facilitating de-dollarization from the global dollar system.

Rubio's bill, ominously called the Sanctions Evasion Prevention and Mitigation Act, would require US presidents to sanction financial institutions using China's CIPS payment system, Russia's financial messaging service SPFS and other alternatives to the dollar-centric SWIFT system.

Rubio is not alone in targeting countries bidding to de-dollarize. Economic advisors to presidential candidate Donald Trump are discussing ways to punish nations that are actively shifting away from the dollar

Get ready for a different "end times" than that preached by the American church.

Yes it is the end times.

It is the end for anything and everything not planted by the Lord. If it does not bear fruit for God's purposes it is end times. It must make room for the growth of God's Kingdom on earth.

It is end times for the Middle East and any nation or people that reject the gospel of Jesus Christ. If the charismatic revival under Islam and communist China keeps spreading then they will be part of God's great sheep nations. If Israel continues to not just reject the Messiah but actively prevent the preaching of the gospel then they will fall in the coming great shaking.

If America continues on a path of war and destruction with 750 military bases around the world and bombing and destroying nations and spreading antichrist culture around the world then it is end times for their nation...but a godly remnant will be saved!

And that was just some of the Kingdom comes trends from headlines this week.
