

Kingdom Vision Report

By Orlando Mostert

For week 24 February 2019

This Week...

**Teaching: The Great Transition in the Church:
From the Five-Fold Ministry to the Ministry of the Saints**

Plus: **Technology for the Kingdom Dominion**

- 12,000 Satellites to cover all the earth in high speed internet
- China modular mass produced pebble bed nuclear reactors
- 2 million people in space colonies by 2040

Finance report: Mutual Owned Bank...good idea for Kingdom Finances

Political Report: The South African political transition

The Great Transition in the Church

Let me give you an interesting statistic about the growth of the Church in the world through history.

This is the ratio of non-Christians to what we would call identified Christians through history:

AD 100 : 360 to 1
AD 1000 : 220 to 1
AD 1500 : 69 to 1
AD 1900 : 27 to 1
AD 1950 : 22 to 1
AD 1980 : 11 to 1
AD 2000 : 7 to 1

Do you notice a trend here?

Is there any other world ideology or political movement or religion that can in any way compare to this trend through 2000 years of human history?

Is God active with a plan through history?

There is another historical trend that is as fascinating and encouraging as the long term trend of the victory of the message of the gospel through all nations.

That trend is the growth of the understanding of what the gospel message is actually all about.

The prophets of the Old testament called it "*the knowledge of the Lord shall cover the earth as the waters cover the sea*".
(Habakkuk 2:14)

That means that people will not just have blind faith or nominally call themselves Christian, but they will have actual knowledge and understanding of the Lord and His ways and His purposes in the earth.

There are two critical elements that will accomplish this: The five-fold ministry offices and the means and technology to get their message out.

The Bible tells us that God has raised up a leadership group within His Church consisting of apostles, prophets, pastors, evangelists and teachers.

This leadership group has a specific calling from God, a particular job to do that is described in Ephesians 4: 11-12

We call this the five-fold ministry leadership of the Church.

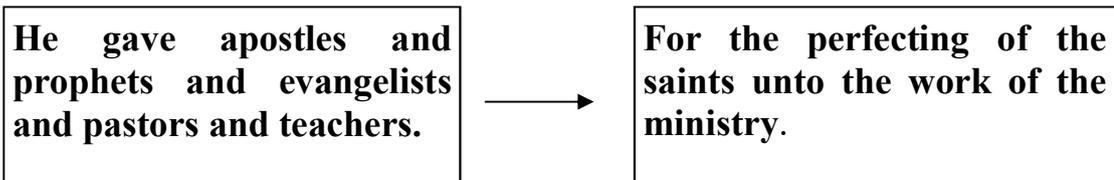

But this leadership group had to find themselves and their calling. They were subverted for centuries by a false five-fold leadership calling themselves priests, bishops, archbishops, cardinals, pope.

God had to restore real Biblical leadership in His Church and then this leadership had to through time rediscover their calling in Christ...and the real message of the gospel of the Kingdom.

This is what Ephesians 4: 8,11-12 says.....

“For when He ascended on high He led captivity captive and gave gifts unto men....and he gave some apostles and some prophets and some evangelists and some pastors and some teachers; for the perfecting of the saints unto the work of the ministry.....”

Now look at this graphic carefully....

Now here is a real important truth for you to grasp:

The five-fold ministry are the foundation ministries upon which God is building His Church. They are there to call the lost to repentance, to teach people the ways of God, to give vision and guidance, to raise us His people, up into the full stature of Christ, to equip us to do the work of the ministry.

The main ministry of the work of the Kingdom of God is to be done by the saints who have been trained and equipped by the five-fold ministry. What is this ministry? It is the original mandate given to all mankind in Genesis 1:26-28 to take dominion over all of God’s creation, to be productive in work, to multiply and replenish the earth and all of God’s creation with life, to transform the earth and its resources (and all of the created galaxies) to be able to nourish and sustain life.

The end result of the ministry is this great vision in Psalms 66:4 and Revelation 5:13....

“All the earth will worship thee and will sing praises to thee they will sing praises to thy name.”

“And every created thing which is in heaven and on the earth and under the earth and on the sea and things in them I heard saying, To Him who sits on the throne and to the Lamb be blessing and honour and glory and dominion forever and ever.

And Isaiah 9:7 affirms...

“Of the increase of His government and peace there shall be no end...”

The Great Transition of the Church.....

We as a Church are now undergoing a great transition. It is the transition from the five-fold ministry offices of the Church are the ministers...they do the ministry; we are the audience...we are the ones being ministered to.

We are transitioning from that to : We the ordinary people in the audience are starting to find out ministries, our callings...we are ready to tackle the great projects that must be done to bring nations into the Kingdom of God.

We are ready to bring all things in heaven and on earth to the obedience of Christ...whether it be science, or business or governance or education or entertainment or law or culture....all things that man does must reflect the glory of God and His ways.

If I am right there are signs that you can already see and when I mention them you will recognize the transition.

The first sign is the success of the 5-fold ministry that the Lord has raised up ever since the reformation of 1517. We have had since then a rediscovery and maturing and development of every office of the Church.

Think of the great apostolic and evangelistic work done by the great missionary movements to plant new churches all over the world. There is not one place or nation on earth that does not have an indigenous Church within its borders.

And all those churches have solid training programs to train pastors and teachers to lead the flock of God and teach the understanding of Bible truths and sound doctrine.

Think of the prophets that the Lord has raised up through the centuries to give us new vision and encouragement. Think of the waves of the outpouring of the Holy Spirit in revivals.

Think of the restoration of other gifts of God to His Church, gifts of healing and prophecy and visions and dreams and working of miracles and faith and authority of over demonic forces.

All these wonderful things have come to pass because the 5-fold ministry leadership of the Church has been restored to us to teach us and equip us and act as visionaries and pioneers of the Kingdom.

But here is the second sign of the transition. There is a restlessness among the saints of God. People are equipped and ready for the work of the Kingdom.

We do not need more sermons.
We do not need more teaching seminars.
We do not need more conferences and conventions where the centre of ministry is the “restoration of apostles and prophets”.

We do not need more and bigger mega-churches and pastors.

We the audience, the faithful church attenders need to get on with our ministries. We need leaders who can recognize that the time has come for the saints to possess the Kingdom and that means a bigger vision than a larger church building or more people in church on Sunday morning.

Let me give you four examples of things that happened this last week in:

- Science
- Technology
- Banking
- Politics

That tell me and show to me it is time for the saints to possess a vision and the technology that God is providing to fulfil the vision of the glory of the Lord in all the earth.

Elon Musk and Space X....headline this week:

How SpaceX plans to bring speedy broadband to the whole world.

The first Starlink satellites are set to launch aboard a Falcon 9 on Thursday. After a third delay, Thursday is now the day Space X plans to launch two small prototype satellites aboard a Falcon 9 rocket the beginning of what Elon Musk and his company hope will be a new way of connecting humanity.

Space X has received permission from the US government to place some 12,000 small satellites in low earth orbit to cover the whole earth with very high speed internet satellite connection that will be capable of 1 gigabit per second downloads anywhere on earth. They are especially targeting the 4.7 billion people who are not yet connected to the internet.

They will provide high speed internet service to some areas of the earth that are poor and backward for free, subsidized by others who can afford the service.

The Kingdom Vision:

Think about the incredible impact high speed internet availability will have to every person on earth. No dictator or Islamic cleric will be able to stop anyone from connecting to the world community.

It will mean the gospel and preaching and teaching ministry available everywhere. It will literally mean the knowledge of the Lord covering the earth as the waters cover the sea. Total saturation of information planet wide!

It will mean the ability to launch commerce among Kingdom communities, our own international digital e-currency; our own international social and spiritual networks; home cell groups linking up all over the earth. Top quality teaching and education for the poorest.

Here is another headline this week based on the great breakthrough of cheap affordable and re-usable powerful rocket launch systems developed by Space X

Fifty SpaceX Falcon BFR could technically enable sustainable orbital colonies for 2 million people by 2040

Large space habitats using inflatable modules developed by Bigelow Space corporation and using the coming new Falcon BFR heavy lift re-usable launch system can transport and sustain 2 million settlers into space colonies.

Space colonization is on the Kingdom agenda.

God is raising up space scientists and engineers, human settlement designs, Ecopolis new urban city designs for sustainable living strategies for centuries.

New economic systems for debt free economic systems.

New farming and food production techniques for space colonies developed from high productive urban farming in high density building structures called "aeroponics".

And much more.....

China developing in next several years new small scale modular nuclear reactors to be mass produced on ship platforms or on land.

1.2 ACPR SMR technical route

➤ ACPR : Advanced Customer-friendly Practicable Reliable

Two ACPR SMR designs:

ACPR50S: Off-shore floating NPP of compact SMR of 60MWe

ACPR100

ACPR100: Onshore NPP of integrated SMR of 140MWe

Kingdom Vision

Numerous private companies in America, Canada and Europe along with Japan, Korea and China are racing to get into production with cheap mass produced small scale nuclear power reactors on the scale of 10-200 mw electric and process heat output.

Bill Gates has invested big money into one of these start up companies.

When these become generally available in about 10 years (although the Chinese think they can do it sooner) then you can have the restoration of viable city states that can produce their own power independently from large power stations.

Process heat from these small reactors can do mineral smelting, water evaporation for abundant potable water from sea water for new cities built on coastal areas where there is no water now available. These power units will also be built on ships with Russia already launching the first one later this year for their arctic oil drilling needs.

For God's Kingdom communities this will mean viable independent cheap and abundant power for independent community development.

New Banking development...

Bank Zero might soon be SA's fourth mutual bank

News this last week that former CEO of First National Bank of South Africa, Michael Jordaan is launching a new bank in South Africa later this year. It will be a mutual bank...meaning that the depositors will be the owners of the bank. New innovation: There will be no bank branches or expensive overheads. Everything will be conducted online through phone apps.

Kingdom Vision:

Under South African banking regulations you can get a mutual banking license if you can show R50 million in capital.

What Mr. Jordaan is going to also prove to us and show us is that you do not need an expensive brick and mortar bank branch network...you can do all of this banking in cyberspace through banking app on your phone and presumably he is also going to use the latest in blockchain distributed ledger technology for secure ledgers.

I am going to watch this development carefully because I believe a major part of our Kingdom dominion strategy is that we need to get control of our finances and stop allowing the national banking system to use our deposits and savings for enriching others.

Keep you eyes on this new banking development.....

South African Political developments.....

This last week we got a new president...Cyril Ramaphosa. Praise God for answered prayer!

But here is the Kingdom Vision issue for me:

I understand that our new President has a strong Christian upbringing and was the leader of the University Student Christian Association. I understand other leaders in our parliament were also with him in the SCA including one of the leaders of the opposition, I understand that the leader of the opposition Maimane was trained as an Assembly of God pastor. Another opposition leader is also a strong Christian. The minister of finance Gigaba's father is or was a pastor...and on and on.

Apparently the majority of all our parliamentarians are Christians.

So here is my question to them: When are you folks going to wake up to Jesus admonition that if you are not willing to confess me before men, I will not confess you before the father. When will you all get together outside of Parliament and have a prayer meeting together and get the mind of Christ for South Africa and accept that you are cadres of the Kingdom of God deployed to government to administer this nation for the glory of God and not for your political party? Lets pray for a real revival among our Christian leaders in government that they will not be ashamed of the gospel of Christ!
