

Kingdom Report

Week 29 September 2018

God's Wrecking Ball and Mammon's End

Evangelicals in America are rallying around President Trump as "God's wrecking ball". But they are not prepared for what I believe the Lord is really going to wreck. Because Mammon must fall to the growing Kingdom of God and they do not realize Donald Trump has a big part to play in the coming world economic collapse.

This week I want to make some strategic analysis of moves on the international chess board of economics and politics with a view to what in chess is called "end game" analysis...what moves can we discern now that will bring the age to a close.

Specifically Trump, America, the dollar and a few other bits and pieces....

It's taken me a while to try and figure out the prophetic significance of Donald Trump and America and where this all fits into my Kingdom rising, Babylon falling narrative. As you might remember I thought all those prophetic types in America prophesying a Trump victory were under some sort of hope deception. Hillary Clinton was my preferred candidate for 'Babylon falling'.

And now look at the world scene! The American economy is booming, the dollar strong, regulations stifling business cut, taxes cut, support for Israel, sanctions on Russia and China....the Make America Great Again campaign well on its way.

Lance Wallnau the evangelical with the loudest prophetic voice on this wrote his book "God's Chaos Candidate" weeks before the election of 2016 and put in print "Thus saith the Lord....Donald Trump is God's king Cyrus for America". really brave! And he was right! I was wrong.

But upon closer inspection 2 years later I find that Donald Trump is a far better candidate for "Babylon falling, Kingdom rising" narrative. Let me confess that I actually like the guy and if American would have voted for him. I like the way he is upsetting the whole international order, the politics of political correctness and the vision of re-industrializing America and keeping out illegal immigrants.

However as I suspected and which was confirmed by passages in Bob Woodward's new book on the Trump presidency....for a billionaire he surprisingly does not really know how the dollar, international banking and international security arrangements work. And as a result he is tearing up the international world order that America built up after World War 2...which is why his "deep state" enemies are desperately trying to get him either neutralized or out of office before the whole establishment comes crashing down.

And that is precisely what interests me in Donald Trump....I think he is God's catalyst to bring the world system down...to be replaced by the rising reality of God's saints and His Kingdom in nations all over the world.

Except of course Trump's evangelical supporters don't see it that way. They see him rooting out the "deep state" bad guys, draining the swamp and returning America to some idealized previous era of prosperity (the post war 1945-1985 generation). How they square this with an eschatology which they preach of Antichrist taking over the world or a soon coming rapture I don't know.

The big move now in evangelical circles is a vision from Lance Wallnau's book "Invading Babylon: The 7 Mountain mandate". The idea here being that the seven mountains of society, things like government, the media, education, church, business etc are to be captured by Christians. This goes along with the vision of Trump as king Cyrus and in his Persian kingdom the Jews attained high government office and influenced Persian kings for the Lord.

Now you know I believe in God's Kingdom manifested in areas like education, science, business, health, finance....but with this crucial difference. I don't believe we can make the world systems operated on their foundation and their premises work according God's principles. I believe as I have mentioned before in a parallel system where we do these civilization things separate from sinners while being in a sinful world....and I have given you interesting technical reasons why with the technology we have today all this is now possible and is coming.

Key point here for example on which all else depends: You cannot save the dollar financial system from systemic structural collapse as it is a debt based system that in essence is a mega Ponzi scheme. And when the dollar falls...so does Babylon. And so does all your 7 mountains you wanted to infiltrate and run better for Jesus.

Now looking at the world economy and the dollar from news reports....it is going gang-busters good in America...4% growth, lowest unemployment in decades etc.

Ah but here is where the Trump factor comes in.....the chaos wrecking ball factor!

Let us take a peek behind the curtains at the huge problem facing the future of the dollar.

This year is the 10th anniversary of the 2008 international financial crisis. Have you noticed all the programs and look backs and analysis of "the world economy almost imploded but thank heavens the US Federal Reserve stepped in and saved the day".

Now let me shock you with some fascinating inside information of how the Fed supposedly saved the world but in actual fact set the world up for the coming biggest economic collapse in world history.

Everyone knows the big banks were just absolutely scamming the world with debt creation. If you could fog a mirror to show you were alive you got a house bond. Any amount, no money down, no income just sign. Those useless bonds were packaged in bundles and magically given AAA ratings by corrupt accountancy agencies and sold to pension funds and other gullible marks. Until it all came crashing down. But the banks and bankers made big fees and big bonuses but got bailed

out...nobody went to jail. Fortunes were made by the elite,,,the little guy got screwed. Profits were privatized...debts were socialized.

What bailed out the banks was that the US Fed just simply created trillions of dollars out of thin air (or computer entries) and paid it over to the big banks for basically no interest. How many trillions?

Well the University of Missouri economics department did an in-depth analysis from thousands of pages of bank documents that Bernie Sanders in the US Senate passed a bill to force them to reveal....how much money did the US Federal reserve create and where did it go. You can read the analysis of the Professors at U. Missouri here: http://www.levyinstitute.org/pubs/wp_698.pdf

Here is their estimate \$29,000,000,000,000.....\$29 trillion!!!!

The US Fed literally created \$29 trillion and lent it out all over the world to the top international banks at essentially almost zero interest rates, they lent it out at about 1% to their top corporate preferred clients who then went on a multi-trillion dollar spending spree buying up their own shares to concentrate the wealth in fewer and fewer hands, more trillions went to corporates to buy up other companies and concentrate real assets of the world into fewer and fewer hands.

Now here is the interesting thing; Through the miracle of fractional reserve banking that \$29 trillion was multiplied through loans and deposits and loans into a world dollar debt now standing at \$350 trillion dollars. That is emerging market countries, corporations, student debt, banking debt....the amount of world debt denominated in dollar loans is now about \$350 trillion.

Note to the prosperity preachers of the last decade: While you were preaching about how God is giving us the great wealth transfer if we only paid our tithes...the greatest wealth transfer in history was taking place as the American banking system created \$29 trillion dollars out of nothing and used that to multiply debt and buy up the assets of the world for the favoured 1% elite of the world. And I doubt that God's people were handed any of that wealth by Babylon.

But now comes Trump on the political scene....and he does not get it. What he does not get is that this whole banking exercise is a massive "bait and switch" international operation by the banking elite. Meaning they lend you trillions of dollars at almost zero percent interest....everyone is happy. Countries like Greece and African countries borrow hundreds of billions on these terms. That is the bait....then it comes time to roll over those 5,10 year loans...but you no longer get 1% refinancing loans, its now 2-4% percent. Now you start scrambling to get hold of dollars to pay your interest.

But here is the problem...suddenly there is a dollar shortage. The US Fed is no longer doing QE (Quantitative Easing) now the policy is higher interest rates QT (Quantitative tightening). The world has now entered that phase, the dollar is rising to all currencies because everyone needs dollars to pay interest on \$350 trillion of debt. And interest rates keep rising because of desperation to borrow dollars to pay debt. To get dollars the world needs to run trade surpluses with America. America must run

trillion dollar trade deficits with the world so that nations and companies with dollar debts can pay their interest. But Donald Trump does not understand this....

He says no, no more trade deficits, not fair, we will make it in America. So the world is in a panic and so are the international bankers. Trump is upsetting the whole international money system flows. America's job is to consume, the world's job is to produce to pay back American dollar debt, dollar debt that was created by creating dollars out of nothing and loaning to the world. But Trump rightly says Hey our American people need good paying factory jobs so that they can buy without resorting to debt. No say the bankers, others will produce and our American consumers will buy on debt credit.

Do you remember the old saying, "If you owe your banker \$100,000 you are in trouble, but if you owe your banker \$1 million the bank is in trouble". Well that is where the world is coming to.

Donald trump is alienating all those dependent on the American dollar system. He wants out of the World Trade Organization, out of NATO, out of Iran treaty, out of Paris climate treaty, out of NAFTA and on and on. His attitude to the world...who needs you...you need America. Actually no, they need American dollars to pay off their \$350 trillion of dollar debt....until they say well actually no we are not going to pay!

Which is what China and Russia and Iran are now doing...they are setting up a world trading money transfer system apart from the US Fed dollar transfer system called SWIFT. Nations that are trading with Russia and China are being offered trade in their own currencies and no need for dollar settlement. Which by the way is why the American "deep state" are at war with Russia and China. If they throw off the dollar shackles and get other nations to do the same....that is the end of American superpower status. The American economy implodes.

Yes Donald Trump is God's chaos candidate...he is God's wrecking ball. He is busy wrecking the international dollar trading system and alienating nations that were allies. He is saying we in America can make it ourselves...you need us. Until the day comes when around the world the international debt of \$350 trillion is declared unpayable and everyone reneges on their dollar obligations....and start to trade with gold and Yuan settlements

Crash goes Babylon! Rev. 18: ***"Come out of her my people...Alas alas the great city Babylon that mighty city, in one hour your judgment is come....and the merchants of the earth shall weep and mourn over her for no man buys their merchandise any more"*** Why? Because the dollar has crashed and international credit and trade has dried up!

I don't believe in taking 7 mountains. I believe in only the Micah 4 vision of one mountain...the mountain of the Lord! And the world comes to God's mountain...we don't run to their mountains. God says in Rev.18 "Come out of her my people lest you partake of her plagues..." It is going to be a great but terrible day of Jubilee when the debts of the world get wiped out. We will have to rebuild the world. But it will be Christians in all the nations of the world that will restore international order based

on God's Kingdom principles. And yes God's people in America will make America great again....because they will revive the vision of the real founding fathers of America the Puritans who dedicated America as God's light to the world.

In the meantime I am enjoying the news spectacle of Donald Trump wrecking ball for the Kingdom of God laying the Babylon structures low!
